Suban Rauf

COMPUTER SYSTEMS ENGINEER · BUETK · CGPA 3.25

Motivated Computer Systems Engineering student at BUETK with hands-on experience in embedded systems, PCB design, and software development. Skilled in bridging hardware and software through Python, C++, and Arduino-based solutions. Actively seeking internship and project opportunities to apply engineering knowledge across real-world technology challenges.

WORK EXPERIENCE

CSE Project Leader

2024 - Present

Balochistan University of Engineering & Technology Khuzdar (BUETK)

- Designed and deployed embedded systems using Arduino and Raspberry Pi for academic lab projects.
- Developed Python and C++ software for hardware interfacing, data pipelines, and system automation.
- Led PCB design and circuit simulation workflows using Multisim and KiCad.
- Coordinated multi-member project teams ensuring on-time delivery and adherence to specifications.
- Performed hardware debugging and software verification testing on deployed systems.

Computer Lab Instructor

2021 - 2022

Ideal Academy Panjgur

- Instructed students in computer lab procedures, hardware safety, and OS fundamentals.
- Managed equipment maintenance and workstation/peripheral readiness for 30+ students.
- Enhanced students' practical understanding of hardware, networking, and programming basics.

PROJECTS

Radar System

Built a real-time radar system using an ultrasonic sensor and servo motor, with live sweep visualization on Processing IDE.

Arduino

Ultrasonic Sensor

Processing IDE

Servo Motor

Data Analysis Tool

Developed a Python automation script for data parsing, processing, and reporting — reducing manual effort significantly.

Python

Pandas

Automation

Library Management System

Implemented a DSA-based library system using linked lists, stacks, and queues for efficient record storage and retrieval.

C++

DSA

Linked Lists

Console Game (C++)

Designed and built an interactive OOP-based console game applying inheritance, classes, and game logic in C++.

C++

OOP

Game Logic

Web Development Project

Built a responsive multi-page website with HTML, CSS, and JavaScript covering layout design and frontend interactivity.

HTML

CSS

JavaScript

Arduino Embedded Projects

Executed multiple microcontroller projects including sensor interfacing, LED control, and motor driver circuits.

Arduino

C++

Sensors

Circuits

EDUCATION

B.Eng. Computer Systems Engineering

2024 - Present

Balochistan University of Engineering & Technology Khuzdar (BUETK)

CGPA 3.25/4.0

FSc Pre-Medical

2020 - 2022

Govt. Boys Degree College Panjgur
